<sup>1</sup> The MDCP is a correlated certificate program. Courses build off of previous courses. All courses are required prior to the awarding of certificates. However, if you can verify that you have successfully completed other certificate or college courses which you feel might fulfill the requirements for particular courses in the MDCP, please contact the MDCP Director at 903-249-2701 (Mac). The AFCC is more than willing to work with you toward accepting previously completed work if the course(s), the qualifications of the instructor(s), and the standards of program courses you have completed are commensurate with the AFCC MDCP.
